2000 nit
screens

Max. "
47

*This housing is tailor made for the LG-47WX50MF
Housings for other brands and types available on request*

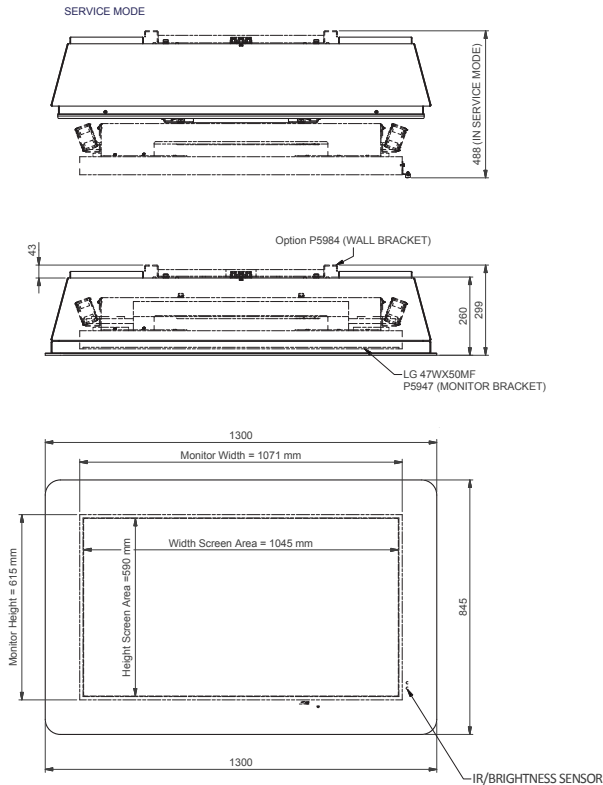

***The perfect landscape outdoor housing for your
47 inch high brightness 2000 NIT flat panel.***

The housing is specially designed to protect and brand the 2000 nit screens in outdoor applications. The unique and modern design allow it to be installed in almost any environment.

The light weight housing is standard equipped with a hardened glass front secured by two hidden locks. Standard equipped with thermostatically controlled heating and extra ventilation and extra filters.

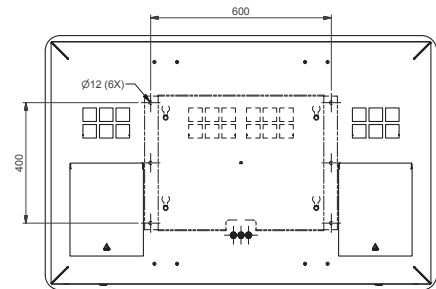

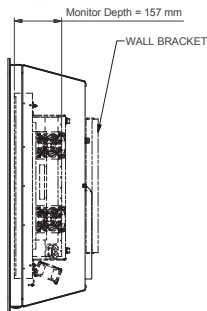

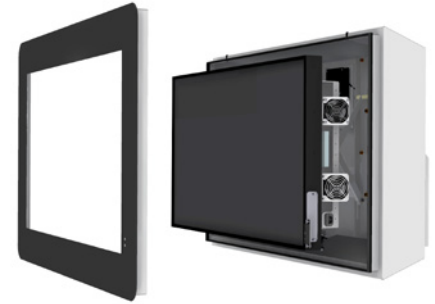

- ▲ **Perfect monitor service access**
- ▲ **Standard supplied with service mode of the screen**
- ▲ **Modern design**
- ▲ **Durable build**
- ▲ **Easy installation**

This housing is supplied with extra ventilation, a forced airflow in front of the screen is created to remove warm air.

Because of the extra ventilation for fresh air inlet, the housing is supplied with extra filters. Therefore only clean air will enter the housing.
