It's great to have solutions...

FACT SHEET

LSS-1000AR

Stackable line array speaker system.

A line array audio solution for large rooms with a 240 Watt speaker. With its modern anodized aluminium housing and black front, it is a modern and welcome addition to the screen and audiovisual application.

The passive speaker can be connected to any standard amplifier. Equipped with high quality European quality 4" reference full-range driver audio components.

In combination with a LSS-SW subwoofer it is a remarkable audio set. Compact line array speaker with full range elements per speaker housing.

A perfect speaker for speech and multimedia support. Suitable for wall mounting. Ideal for public places, large meeting rooms, churches etc.
