

Next level TV integration

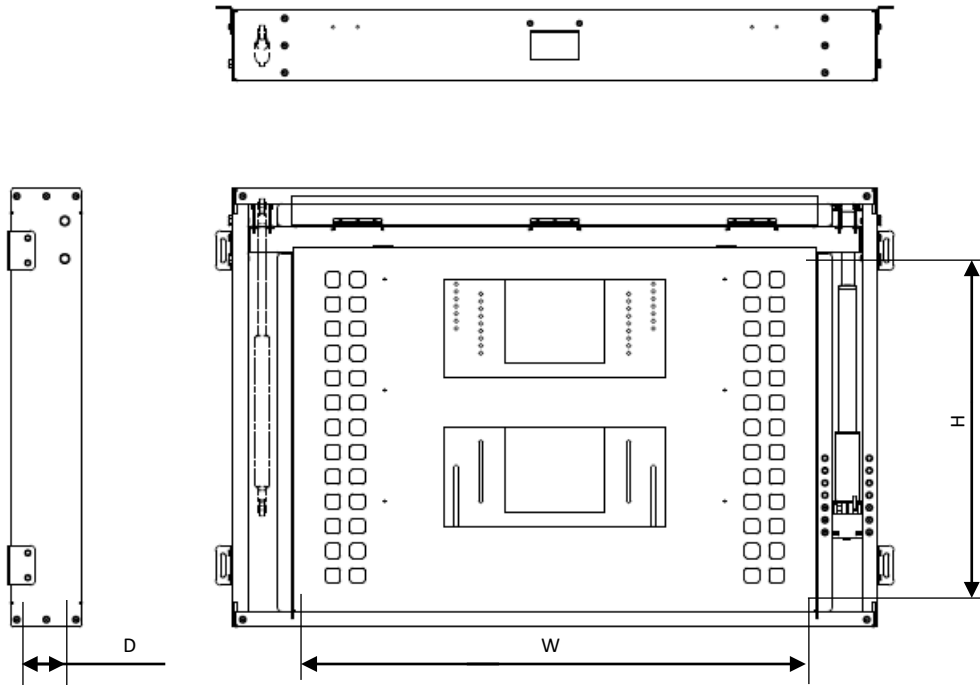

TV flip down lifts are ideal for the integration of TV's in the ceiling. Space saving in the room because of not temparing with traditional furniture and storage spaces.

Not to forget that a ceiling mounted TV has the best viewing angle for larger rooms and for watching TV from your bed.

You can expect the best finishing, low noise motion, unvisible TV cabling; a joy to watch at.

Suitable for Home Cinema, Super Yacht industry, Boardrooms, training facilities etc.
