

Rota-Kit[®]

rotates your projector

The Rota-Kit,

*helps you position your projector in any direction with
just one push of a button*

Audipack[®]

It's great to have solutions...

Rotate your projector

in every *direction*

Turn any room into a multi-functional space by rotating your projector.

Rota-Kit is an electric rotating system with 4 freely reprogrammable pre-set positions.

A contact control allows the projector to be rotated to one of the four preset positions, for flexibility of the projection direction.

The Rota-Kit comes in three standard versions, with different tube lengths.

- ▲ **Accurate repositioning**
- ▲ **Compact system dimensions**
- ▲ **Slow start and slow stop motion**
- ▲ **Available in several lengths**

ACCESSORIES

To control the system other than through relay contact:

- Ref. 260214** (Internal IR remote control set, 2 positions)
- Ref. 260215** (Internal RF remote control set, 2 positions)
- Ref. 261227** (External IR remote control set, 4 positions)
- Ref. 261228** (External RF remote control set, 4 positions)

Ref. P3660

*Installation aid for accurate installation
Also suitable for metal supported ceilings*

To install your projector to an Audipack product an additional projector mount is needed.
See "Projector mounts" section on page 121 for an overview of the available projector mounts.
