*It's great to have solutions...*

# A **NEW** view on **projector rigging and stacking**

**The Audipack PSF stack frame series is the safest way for handling a projector in rental and staging applications.**

Audipack has developed a special lightweight frame that fits the projector like a glove. The strong, aluminium, light weight construction gives a good grip for lifting, table installation or installing the frame and projector to a truss.

The projector is fitted to the bottom frame on adjustable axes, which allow the projector to be lined up to the screen with high accuracy. Multiple frames can be easily connected and stacked for high output projection. The PSF stack-frames are available in standard sizes, and are also available in custom sizes on request.

- ▲ **New and modern design**
- ▲ **Lightweight 50 mm tubular construction**
- ▲ **Easy to adapt to any projector brand and type**
- ▲ **Integrated fine tune 3D adjustment**
- ▲ **Rotating mounting points for flying installation**
- ▲ **T-Slot mounting in tubes for accessory installation**
- ▲ **5 times overload Safety factor**
- ▲ **Custom models available on request**

Optional:  
 Double coupler truss clamp: **260210**  
 Stainless steel security cable: **399941**

## STACK FRAMES

Order explanation:

**PSF-608525**

**\*Note:**

**To order your stack frame make sure that your projector including cables and lens fits in the internal dimensions of the stack frame**
