

# Liftomatic®

## rental systems

**The revolutionary flat panel Liftomatic®,**

*an all in one solution. The system lifts the flat panel out of a flightcase to the correct presentation height.*

*There is no better solution!*

**Audipack®**

*It's great to have solutions...*

**Stand above** the crowd with

the Audipack **Liftomatic®**

**Protect your equipment by using the Audipack Liftomatic flat panel lifting range.**

The flat panel Liftomatic® is an all in one transport and presentation solution for screens up to 90"

Audipack offers two types of Liftomatic® systems;

**Flightcase Liftomatic®** systems. This flightcase with built-in telescopic lift system accommodates flat panels with a diagonal up to 65 inch. With just the push of a button your screen rises to a presentation height of 1800 mm (centre screen). Inside the flightcase is a big accessory compartment. As option there is a cover plate to cover the top of the flightcase in open position during use.

**Liftomatic®** systems with retractable wheel

*Audipack also engineers and manufactures custom rental systems for the easy transportation and set up of LED and OLED walls. The high tech components and intuitive controls minimise the need for tools or the handling of products.*

- ▲ **One man floor operation**
- ▲ **Invisible lift mechanism**
- ▲ **Electrical or manual retractable wheels**
- ▲ **Available in various presentation heights**

Flightcase Liftomatic®

All in one transport and presentation solution

Flightcase Liftomatic®

Available with optional cover plate

**UNIVERSAL FLIGHTCASE LIFTOMATIC® SYSTEMS, A PERFECT RENTAL SYSTEM**
