

Truss mounts

for projectors

Audipack truss mounts, ideal for rental & staging

Audipack truss mounts offer flexible installation options and secure features

Audipack®

It's great to have solutions...

Safe and solid

truss mounting

Do you need easy and quick projector truss mounting? Use the Audipack truss mounts!

Audipack offers a wide range of truss mountable projector mounts and solutions. To address different applications, Audipack offers specific solutions, from a simple projector mount to sophisticated 3D adjustment features. The mounts allow a quick and safe installation to be performed every time.

The **UTC range** offers a universal but very flexible and well-designed mounting range for projectors up to 30kg. Light weight, tolerance free and with integrated ball joints for perfect screen alignment.

The **Quick release** product line is distinguished by its unique separable ball joint and is the safest way for installing projectors up to 52kg to trusses. After installing the tube set, just click the projector to the tube set - 'click and go'.

Align the projector to the screen with the ball joint or even with the optional 3D adjustment (**QR-plus**) or linear adjustment (**QR-plus+**); ideal for seamless projection.

- ▲ **Fine pitch, pixel on pixel adjustment**
- ▲ **Rigid and safe construction**
- ▲ **Any configuration possible**
- ▲ **Very flexible**
- ▲ **Integrated cable ducts**
